Company Introduction

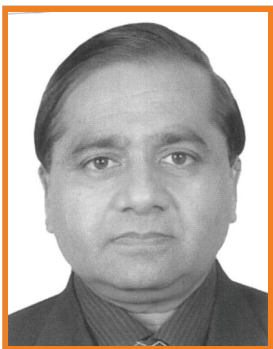

We at Intech Forge (India) Pvt Ltd are manufacturers of LPG Cylinders and Forging items like auto parts, flanges, pipe fittings, hammer unions, ring joint gaskets and electric transmission products. We are also wholesale traders and exporter of steel and coal products with vendors and clients all across the globe.

We believe that the customer is king. We provide exceptional quality and service by manufacturing to exact specifications and delivering shipments on time. We have a plethora of clients who are delighted with our services and mode of functioning which is sustainable and profitable for both the parties. We take client feedback with utmost care and priority which helps us to streamline our processes to cater to each of them as per their needs. Thus, we strive at establishing a long-term business relationship with our valuable customers.

Determined to remain at the forefront in such a competitive industry, all our products are made by a dedicated team of well qualified engineers, technicians and workers. Our strong human resource is complemented by ongoing investments in bringing the best technology to become a leader in the manufacturing space.

Leadership

Without the right kind of people, and the right kind of culture, a brand can never be both successful and sustainable. Intech Forge values its people more than anything else. The employees, the staff members and the partners are the company's real assets. Our team is a group of qualified and experienced engineers, financial experts, human resource & management professionals.

Mr. Premchand Agarwal
Chairman

Mr. Kunal Agarwal

LPG Cylinder Plant Installation and Consultation

We provide comprehensive technical and engineering consultancy services for setting up LPG cylinder production plants. With over 15 Years of consistent expertise, we provide consultation for setting up of LPG cylinder plants from installation up to commencement of production (including live demonstration). We focus on keeping a simple approach to ensure quality and cost effectiveness in all processes of manufacturing. We have a team of highly skilled engineers and staff for LPG cylinder manufacturing setup.

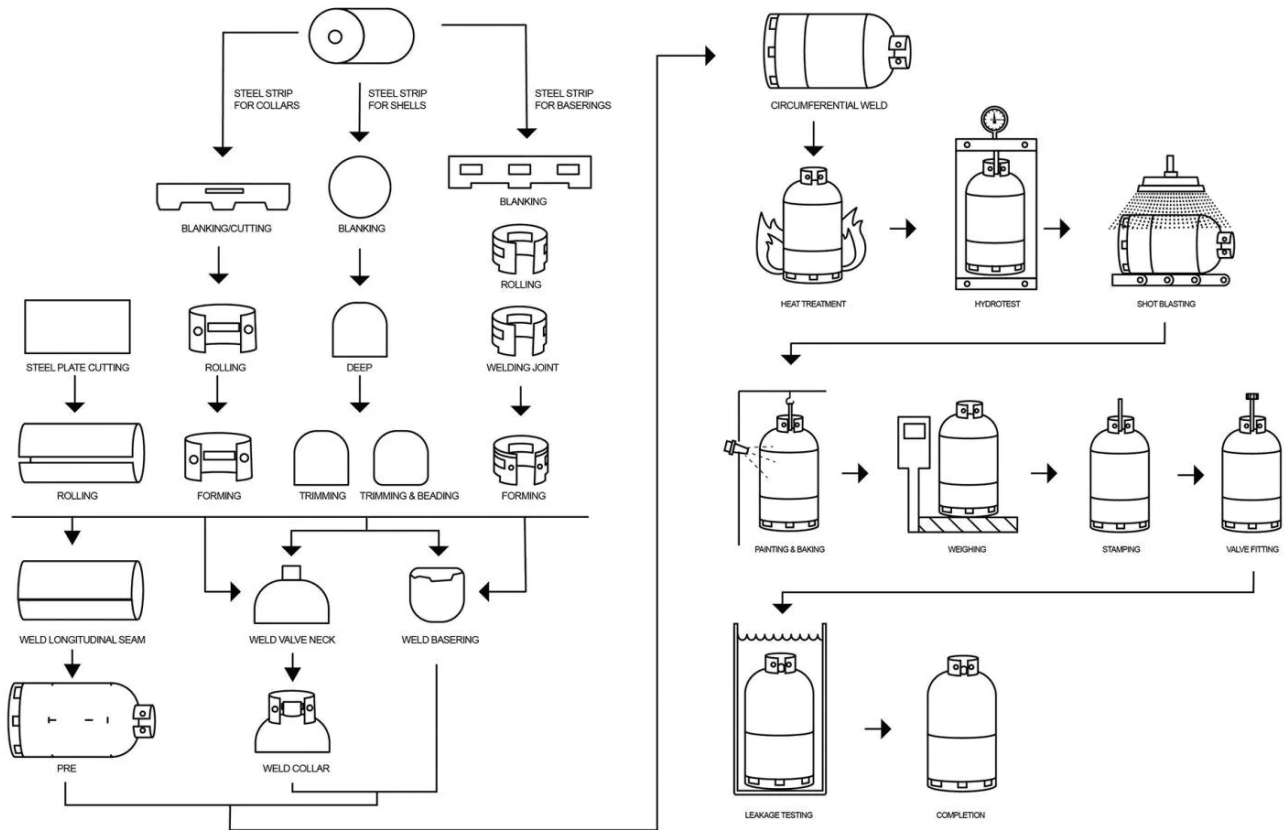

We are supplying LPG Cylinders to major PSUs like Bharat Petroleum, Hindustan Petroleum and Indian Oil and also to private players like Reliance Gas through our own LPG cylinder manufacturing unit. Our plant consultancy is widely recognized in the domestic and overseas markets. We strive for excellence through innovation and technology.

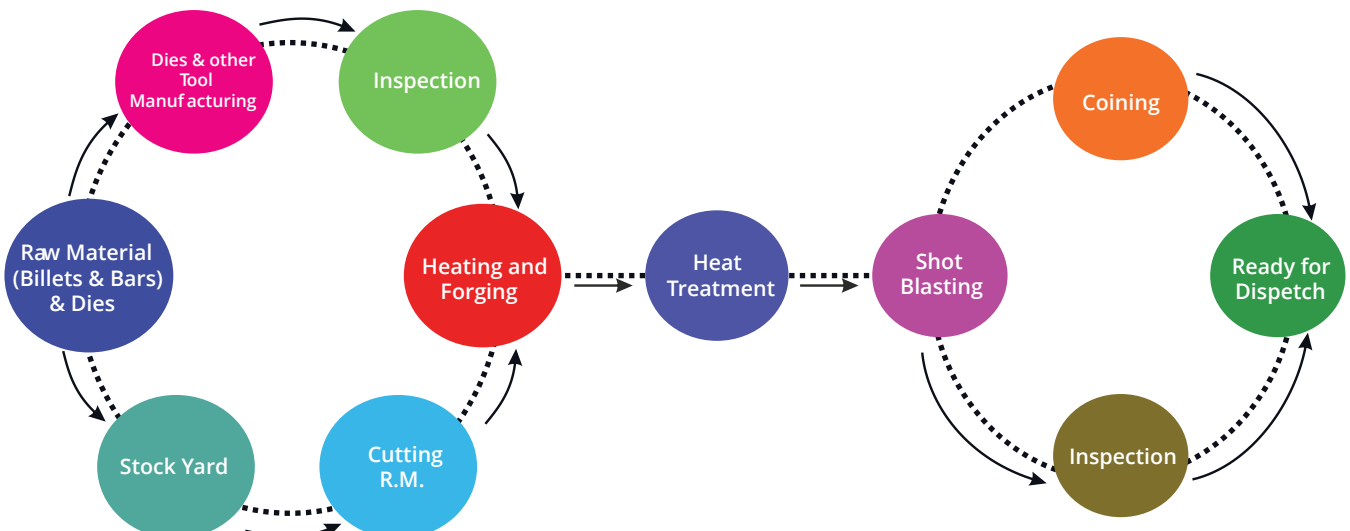

Process Flowchart

The layout of the plant has been designed in such a way so that all the manufacturing activity can be done under one roof to facilitate easy & quick flow of processed material from one stage to another stage of processing to reduce Manpower, Time, and Cost.

Our Sister Concern

Global Enterprise

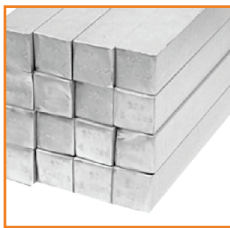

Global Enterprise is a pioneer in the import and export segment dealing with all kinds of steel and coal. The company was started in the year 1985 as Balaji Sales which is a sister concern today by Mr. Premchand Agarwal who is a pioneer in the steel trading business. Today, under his leadership, his son Kunal Agarwal has expanded the business to multiple products, industries and geographical boundaries.

Steel and Coal Products

Over the years, Global Enterprise has built a reputation for supplying consistently superior products, with on-time delivery, which makes us the preferred suppliers for companies across sectors. Strategically located in Ahmedabad and Rajkot, we supply steel, coal and scrap to several leading industries in Gujarat as well as the rest of the country. The products we supply are of the highest quality and can be used in a wide range of applications.
